

Leading company in the field of Jewellery software seeking international partners

Dear Sirs,

Please allow me to introduce you to our organisation, Epura BV Netherlands. We are a leading company in the field of enterprise software for the jewellery industry.

Our software provides every possible detail a jeweller needs for his everyday business including: POS (point of sale), Inventory, Product Movement and Repair. In addition, extensive financial analysis is available. The program is extremely fast and user-friendly. It works with proven technology, is developed in Visual Basic and uses MS-SQL Database. A state of the art touch screen for the cash registers is also available.

Currently we are seeking to expand our activities to cover other parts of the world including USA, the Middle East, Australia and New Zealand. We are looking for representatives/partners to promote and sell our software in the above mentioned countries. Our aim is to increase our market share and turnover and to provide a challenging product which is competitive on a global scale.

We are proud of our software and our commitment to excellence. Our partners will be carefully selected and will benefit from high profit share, our market experience and professional training and support. Together, we hope to make a successful team that will deliver satisfaction to our customers and financial rewards to ourselves.

If you find our offer interesting and if you would like to know more about becoming an active partner with Epura, please feel free to contact our offices in the Netherlands at the following number: +31-33-4559065 or e-mail us to info@epura.nl. Our CEO Mr. Fred P. Snabel will be more than happy to answer all your questions. Please check our website www.epura.info for detailed information of our products and services.

We look forward to hearing from you soon.
